These two quilts I've made for donations, in an effort to use up my black-and-white fabrics. I'm calling these the "Black & White & Red All Over" series, in honor of the old joke which I thought was hilarious when I was a kid.

Echinacea—Pattern & quilt kit (including all fabric) by Anna Marie Perry. Fusible appliqué by machine for the flowers. Petals were placed on various areas of her colorful fabrics to get desired effect. There were different fabrics including color blocks, squares, and diagonal stripes. It finished 80 inches square and was quilted by Becka Owen at Blooming Acres Sewing Studio in Mt. Vernon.

Delectable Mountains—I purchased this paisley fabric over 25 years ago from Kountry Kreations, the incredible fabric shop just down the road from the Kalona Cheese Factory. The half square triangles have sat for all of those 25 years and I'm happy to finally have this completed. The label reads: *For the love of paisley, I even made paisley pants. • Thank you for having all the great fabrics Sara M. Miller. • By Meredith Lee Sewell • Iowa City, IA • Fruition in 2025.* I purchased corduroy and wool paisley fabrics from her for those crazy, loved and now worn out pants. Hand quilted. 86" × 86"
